

MISSION BEACH NATURE AND CULTURE

- Djiru rainforest culture
- Two world heritage areas: rainforest and reef
- Over 36% of Australia's bird species
- Australia's highest density of cassowaries
- Australia's biggest fan palm forest
- Australia's longest and widest east-west rainforest corridor
- Australia's most complex rainforest
- The only lava flow on the Wet Tropics coast
- Endless beaches, islands, reefs and walking tracks
- Peaceful relaxed atmosphere

More and more businesses at Mission Beach are embracing our outstanding natural environment
Here's a selection of local businesses with a formal commitment to nature conservation

Mission Beach Charters are accredited Wet Tropics guides who offer snorkelling and cruising to local reefs and islands. They aid scientists from AIMS, JCU, CSIRO, ANU & UQ with various programs including monitoring inshore reefs and water quality.
